Presentation of EB project management GmbH

EB pm is a consulting organization specialized in the fields of European funding. We develop projects ourselves (such as HARRAGA) and implement them ourselves. We also accompany organizations from idea generation to implementation. In addition, we work in the field of certification of reports funding programs. Furthermore, we are also a recognized organization at the operational level in the areas of human resources development, regional development, training and further education as well as equality and diversity. EB pm currently employs seven people, including the management.

Presentation of IPA

Since its inception in 2016, the Innovation and Planning Agency (IPA switxboard) has evolved from an idea into a well-established social enterprise covering the countries of Tunisia, Iraq, Germany, Austria and USA, on the premise of supporting disadvantaged communities by unlocking their potential for economic and social growth through providing global network of resources as well as nurturing and inspiring a new generation of responsible leaders the world.

IPA switxboard's migration program follows its connectivity approach in so far that migrants receive direct immediate relief and counselling assistance to identify the best matching services in line with the individual profiles. This referral mechanism is facilitated through a technological supported information service through which relevant social and technical services throughout Tunisia are made accessible.

Description

Tunisia being a country of destination and transit for migration, the rise of irregular migration in it (Tunisia) raises new questions about ways to prevent this phenomenon.

The "Harraga" project aims to better support those who are in particular need of protection, but also to develop solutions and alternative perspectives for target groups to support sustainable development objectives

Target

- Migrants from neighborhood and sub-saharan african countries
The emphasis here is in particular on vulnerable migrants, victims of violence and sexual violence, people affected by human trafficking who are not sufficiently protected and cared for.
 Target number 600
- Repatriates
Tunisians repatriated from Europe (voluntarily or involuntarily) and who need support for reintegration in order to not attempt illegal migration again.
 Target number 600
- Tunisians who plan to emigrate illegally to Europe:
These are mainly adolescents and young adults "illegal migration hot spots" such as Zarzis, Medinine, Tunis, Sfax, etc
 Target number 4000

The target number for all the target groups is expected to be 5 200 in which the project will target specifically

Project Goals

- Reduction of irregular migration from Tunisia to Europe through direct "Grassroot" engagement with the target groups.

- Integration of Tunisians repatriated from Europe.

- Perspective development of and with migrants from neighborhood and sub-saharan african countries stranded in Tunisia.

- Ensuring sustainability
